Version 1.0

Tube Fender Flares: What do you need?

- This accessory is compatible with our Model 1: Rancher 4x4 so you need one, of course :-)
- Print Filament: To print this model you will need 48 g of print filament in total. We print our models from PLA material, but you can use PET filament for more strength.
- Screws:
 - M2x6: 14 pcs 

Tube Fender Flares – step 1/2

Pictures shows just left-side – repeat these steps for right side too.
